Kritiker forts

- 15 Beautiful dog, very good size and proportions, excellent body and bone, nice masculine head with a good expression, well angulated hindquarters with short powerful hocks and a good shoulder, of Champion quality but out of competition today (lame).
- 16 Very feminine bl & tan bitch with beautiful head and a sweet expression, good shoulder and nice outline, I should prefer a shade more length of back to balance heavy body, well muscled hindquarters, moved freely.
- 17 Very nicely balanced bl & tan bitch with good proportions and the correct length of back to balance her length of leg, excellent shoulder and front, nicely angulated hindquarters, feminine head with a long ear, though I should prefer a little more lip, moved nicely but a little close behind.
- 18 Very feminine, well balanced bl&tan in lovely muscular condition and a good mover with a perfect stern, feminine head with a pretty expression, nice low set ears and good neck and shoulder, good outline and good bone.
- 19 Bl&tan bitch in shining condition, very good bone and body with good feet, nice topline, head good in profile but the skull is a little wide for a bitch, nice shoulder, movement a little uncoordinated.
- 21 Balanced red bitch, good strong colour, very good shoulder and upper arm, nice neck and good topline although carrying a little extra weight, well balanced in outline, head has good length but her skull a little broad for a bitch, would like more furnishing.
- 22 Nicely balanced bl&tan bitch with good proportions in profile, correct length of back to balance her length of leg, good long neck, nice long head with fine skull but needs a little more lip, very feminine head, good front and feet, I should like a little more angulation in hindquarters, free mover but unsteady hocks.
- 23 Bl & tan bitch of good size with good bone, nice depth of body and length of foreleg, good proportions in profile with reasonable angulation of hindquarters, correct length of head but skull a little plain and broad for a bitch, moved freely.
- 24 nice bl&tan bitch, good proportion in outline with a good length of back, nice neck and shoulder, good front and feet, I should prefer a little more angulation of the hocks but she moved freely, good length of head but needs a bit more lip to balance the length of ear.
- 25 Mature bl&tan bitch carrying some extra weight witch affected her movement, nice front and shoulder with good feet, good length of neck and back, I should like a little more angulation in hindquarters, good length of head but needs a little more furnishing and lip.
- 26 Well balanced bl&tan bitch, feminine with nice proportions, good front and feet, nice shoulder and length of back, hocks a bit straight witch affected her length of stride behind when she moved, feminine head but would like more lip and furnishing.
- 28 Liver and tan bitch, very nice type in profile with a good topline, reasonable angulation of hindquarters and a good shoulder, very nice head with lovely expression, plenty of lip and lovely long low set ears, good bone and feet, profile movement good but moved close behind going away.

31 **Avelsklass för hund 14** A very coincident group of type, all of very good fronts and shoulders with good length and good long necks, all with good bone and all very good pigmented. (11, 13, 24 och 26)

32 **Uppfödarklass kennel Astors** Very consistent for type, all with good bone & shoulder, good pigment and good length on the whole, all with good length of head. (11, 13, 24 och 26)

33 **Uppfödarklass kennel Sagio** Kunde ej delta med gruppen!

34 **Uppfödarklass kennel Yardley's** Very nice group, all consistence for type, all with good depth and very well furnished heads, plenty of bone, good shoulders and fronts, all with reasonable hindangulation. (10, 19, 28, 30)
